

JEAN CARLOS REYES

FULLSTACK .NET DEVELOPER

PROFESSIONAL PROFILE

I'm a passionate software developer with expertise in .NET and React. With strong skills in C#, .NET, React, and Node.js (TypeScript), I'm committed to building high-quality applications that drive business success. I specialize in creating seamless integrations between systems and services, ensuring reliable data flow and optimal performance across platforms. Dedicated to continuous learning and staying current with the latest technologies to deliver significant value to any organization.

EXPERIENCE

Software Engineer - Administrative applications

Banco de Reservas | September 2024 - Currently

Migrated and developed web portals using Umbraco CMS, maintained REST services within IntranetServicesRest, resolved bugs across .NET Framework and .NET Core systems, and implemented updates to Next.js platforms. Developed and optimized SQL Server databases, including stored procedures, functions, triggers, and complex queries to support application functionality and improve performance.

IT Systems Analyst

Dirección General de Migración | October 2023 - September 2024

Collaborated on the modernization of an MVC application, migrating it to Blazor on .NET 8, resulting in enhanced performance and improved user experience. Maintained and enhanced a React application while developing new endpoints for a microservices-based API.

Technical Support

Caribbean Catering Services (CCS) | November 2022 - March 2023

Designed and generated comprehensive sales reports using Crystal Reports with SQL Anywhere database. Deployed and configured Pixel POS software on point-of-sale terminals.

EDUCATION

Pontificia Universidad Católica Madre y Maestra (PUCMM)

Bachelor's Degree in Computer Science Engineering | January 2024 - Present

Instituto Tecnológico de las Américas (ITLA)

Associate Degree in Software Development | January 2021 - April 2023

Colegio Técnico La Redención

Technical High School Diploma in Computer Science
